CO CGM for Pets

Continuous Glucose Monitoring Management System Specially Designed for Pets

Monitoring App

Specially designed with the unique needs of pets in mind. Unlike CGM App for humans, FurCarer App considers factors such as species, size, and metabolic rates that influence your pet's glucose levels. Human-oriented software often lacks this tailored approach and doesn't provide the necessary insights for pet diabetes management.

CO CGM Features

CGM system specially designed & developed for your beloved companion

Comfortable

Adhesive tape and patch specially designed for pets' skin

Accurate

Clinical trial certified MARD < 8%

Continuous

Helping owners better understand pet's health status.

Multi-species applicability

Specially developed calibration algorithm for both dogs and cats.

CGM Matrics

Monitoring	14 days
Calibration	Calibration-free
Waterproof	IP X7
Shelf life	18 months
Data updates	Every 3 mins
